#### **DETAILED ACTION**

#### **Drawings**

1. The drawings are objected to because the drawings are informal and it is very difficult to see the details of Fig. 2. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

## Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Application/Control Number: 09/970,953

Art Unit: 2157

3. Regarding claim1, the phrase "can" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention.

See MPEP § 2173.05(d). For examination purposes the claim is read as a banner management method encoded on a computer-readable medium operating on a browser user interface on terminals in a network of terminals, the method comprising steps of:

(1) the method comprising the steps of initializing a command file with inputs from a system administrator of the network, including providing an interface by which the system administrator customizes banners displayed on each browser interface and (2) executing the command file, thus displaying banners as ordered by the command file.

Page 3

## Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 5. Claim 1 rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat No. 5,848,396 to Gerace (hereinafter Gerace).

Art Unit: 2157

6. Gerace teaches a banner management method encoded on a computer-readable medium operating on a browser user interface on terminals in a network of terminals, (Fig. 1 and col. 3, lines 39 - 67): (1) the method comprising the steps of initialising a command file with inputs from a system administrator of the network, including providing an interface by which the system administrator can customize banners displayed on each browser interface and (abstract and col. 4, line 1 - 66) (2) executing the command file, thus displaying banners as ordered by the command file (col. 5, line 1 - 26).

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Sahera Halim whose telephone number is (703) 305-

8054. The examiner can normally be reached on M-F from 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Ario Etienne can be reached on (571) 272-4001. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
